Objective

An enthusiast software developer, focused on the front-end and trying to make responsive and accessible web apps that guarantee users a good and smooth browsing experience.

Experience

Front-end Developer | Beyond Creation

Mar 2022 – Present

- Write modern, performant and maintainable code for a diverse array of projects.
- Work with a variety of different languages, platforms, frameworks, and content management systems such as JavaScript, Next.js, React, and Strapi.
- Producing stunning visual elements of web applications by translating UI/UX design wireframes into code while producing high-quality, reusable markup using HTML5 and CSS3.
- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement
